

Synthetic Turf International

The putting green you installed at our new home in Hattiesburg is great. It's the closest thing to a real grass putting green I have putted on. It always rolls smooth and true like a high quality grass green. Best of all, it's always the same with no maintenance.

Your installation crew are true craftsmen. It was well worth having them do the installation. The entire job was handled in a professional manner.

We look forward to years of good practice and family entertainment on our S.T.I. Green.

Sincerely,

Brett Favre
