Premium synthetic turf is a proven solution for lawns and landscapes of any size. Perfect for shade or drought "problem" lawns, decorative lawns or replacing an entire yard, synthetic turf is an economical, environmentally-safe, durable solution which takes any lawn or landscape from good to great.

With Synthetic Turf International

THE GRASS IS ALWAYS GREENER ON YOUR SIDE

Synthetic Turf International's surfaces require virtually no maintenance and no irrigation, and are available in traditional indigenous grasses, including: Rye, Fescue, Zoysia, Tipede, Kentucky Blue.

Long before "green" became an international buzzword, homeowners, leading architects and builders around the world were experiencing a greener world courtesy of **Synthetic Turf International**.

NOW'S YOUR TIME – EXPERIENCE A GREENER WORLD

Our designers and professional installers have the expertise and the experience to see your backyard dreams become reality. You deal direct with the world's largest synthetic surfacing company.

NO SURPRISES. NO COMPROMISES.

There is no more economical, environmentally-sound option for putting greens, play grounds, or almost any grass play field you can imagine. ADA compliant, **Synthetic Turf International's** surfaces exceed all requirements for safety and quality. This is literally the finest synthetic surface in the world. Used at the venerable David Leadbetter Golf Academy these putting greens are backed by research and testing typically reserved for golf professionals. Now, the same technology and proven surface is reserved for you.
